

# Ventless Hood

## Model FSH-6

- The compact and simple design of the ventless hood eliminates the need for expensive roof modifications and the hassle of dealing with multiple vendors supplying separate hood and electrical systems.
- Our one-of-a-kind stainless steel hood provides vapor removal requirements for a variety of food service applications and equipment.

### Construction

18 gauge stainless steel

### Standard Features

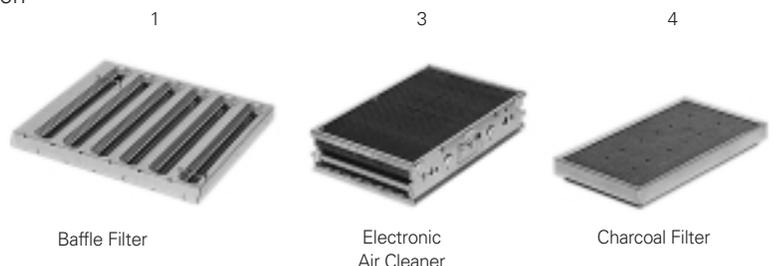

## Ventless Hood System

The Ventless Hood consists of an Air Filtration System. The Air Filtration System operates in three steps:

- (1) Baffle Filter traps large grease particles;
- (2) Prefilters, not shown, allows for additional grease laden vapors to be removed from the air more efficiently;

- (3) Electronic Air Cleaners consist of an ionizer which charges particles of grease in the air allowing them to be collected by an electrostatic force;

- (4) Charcoal Filters further entrap any particles which may have escaped the Electronic Air Cleaners, and the charcoal filters help eliminate odors.

### DIMENSIONS:

Width: 72 11/16" 185.42 cm  
 Depth: 49 5/8" 127 cm  
 Height: 75" 190.50 cm

### WEIGHT (CRATED):

Shipping Weight: 733 lbs  
 (292.37 kg)  
 Shipping Size:  
 55" x 81" x 50" = 128.91 cu ft  
 (139.7 x 205.74 x 127 = 3.65 cu meters)

### ELECTRICAL SPECIFICATIONS:

208/240 V 15 AMPS 60 HZ  
 1 phase only.

### LISTINGS:

UL Classified, NSF listed, CFM: 840 - 1290  
 UL Canada, Approx. Decibel Level 73  
 SBCCI #94161  
 BOCA # 94-34  
 ICBO # 5148  
 L.A. CTY # RR 8110

### Bidding Specifications

- Specify as Model FSH-6.
- Specify voltage (208/240).
- Specify extra Electronic Air Cleaners (PN 20520)\* & (pn 20521) for back up
- Specify extra charcoal filter (PN 32056) for replacement, requires 2 filters.\*
- Specify extra prefilters (pn 46762), requires 2 filters.\*
- Specify shipping method.
- For export consult factory.
